## Experience

### Tipico Ltd. - Malta

Tipico is the market leading sportsbetting provider in Germany.

#### Frontend Developer / January 2015 - Present

Working on Tipico's flagship mobile webapp using mainly AngularJS and SASS, and also Java with Spring for the backend APIs. Acting Scrum Master for a team of 5, optimizing internal processes to improve team efficiency and engagement.

- Increased test coverage by 50% by leading a unit testing workshop and mentoring colleagues.
- Improved app load times and speed index by 30% through a deep performance analysis and optimization effort.
- Improved team motivation and focus by defining team objectives, introducing peer reviews and streamlining sprint planning.

### Unit Testing AngularJS

#### Course Instructor / January 2016 - Present

Published a video course on Udemy covering how to test AngularJS applications.

- Over 1500 students have enrolled in the course with 100+ positive reviews.

### Deckd

#### Founder / May 2014 - Present

Founded an e-commerce store selling sustainably-sourced wooden sunglasses.

### KPMG Crimsonwing - Malta

ERP Solutions provider with offices in UK, Malta and the Netherlands.

#### Dynamics NAV Developer & Consultant / June 2013 - December 2015

Client-facing role, participated in numerous ERP implementations for customers in a range of different industries. Involved at every stage of a project's lifecycle including pre-sales, requirements gathering, implementation and support.

- Reduced support ticket backlog by 50% during time as support coordinator by batching issues, delegating tasks and training clients.

### Ascent Software - Malta

Software House specialising in bespoke development solutions.

#### Junior Developer (Intern) / June 2012 - September 2012

Worked on an investment fund Cash Management System and a mailing kiosk for the national postal service using .NET technologies, SQL and BI reporting tools.
